

## Is Globalization Dead?

### Dr. Arindam Bhattacharya

*Senior Partner and Managing Director,  
Boston Consulting Group, New Delhi*

Dr. Bhattacharya has been researching and writing about Globalization for over a decade now. In 2008 he co-authored a book on the subject focusing on the rise of emerging markets and how that is changing the very notion of globalization. Today, when many sceptics are raising questions whether one of the most powerful forces that has shaped recent human history is on the decline, if not dead, he takes a very different view - Globalization is NOT Dead. In fact, it is accelerating, but it is very different!
