Counts follow reporting standards for the Integrated Postsecondary Education Data System (IPEDS) except as described below and include employees on the institution's payroll as of Nov. 1. Counts include employees with faculty status whose primary occupation is instruction, research, public service or a combination thereof. Administrators and librarians with faculty status are not included. Staff members who teach but with primary occupations in other areas are not included. Total counts 2006-2016 restated to match administrative data and will reflect small variances from IPEDS; fall 2017 and later total counts reflect those reported to IPEDS. Data for race/ethnicity categories were collected and reported using definitions from IPEDS; values for 2011 and 2012 have been revised to reflect these guidelines. Individuals may be counted in only one category. Percent of total uses the total number of employees as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove employees with unknown race/ethnicity as well as U.S. Nonresident (international) employees from the denominator; this calculation is comparable to figures from the U.S. Census.

Full-Time Equivalency calculated as 1 FT = FTE, 1 PT = 1/3 FTE.  
 Data Source: SBU Data Warehouse ReportEmployeeJobRecords.

Counts follow reporting standards for the Integrated Postsecondary Education Data System (IPEDS) except as described below and include employees on the institution's payroll as of Nov. 1. Counts include employees with faculty status whose primary occupation is instruction, research, public service or a combination thereof. Administrators and librarians with faculty status are not included. Staff members who teach but with primary occupations in other areas are not included. Total counts 2006-2016 restated to match administrative data and will reflect small variances from IPEDS; fall 2017 and later total counts reflect those reported to IPEDS. Data for race/ethnicity categories were collected and reported using definitions from IPEDS; values for 2011 and 2012 have been revised to reflect these guidelines. Individuals may be counted in only one category. Percent of total uses the total number of employees as a denominator; changes in unknown race/ethnicity can distort percentages. Percentages of U.S. citizens and legal residents with known race/ethnicity remove employees with unknown race/ethnicity as well as U.S. Nonresident (international) employees from the denominator; this calculation is comparable to figures from the U.S. Census. Full-Time Equivalency calculated as 1 FT = FTE, 1 PT = 1/3 FTE. Data Source: SBU Data Warehouse ReportEmployeeJobRecords.
